WORK EXPERIENCE

Web Development Intern — Feb 2023 - Apr 2023
RABLO.in — *Pune*

- My team works on developing Frontend components for a full stack Ed-Tech Web application.
- Team Lead of the Frontend team of 6 members.
- Technologies used are HTML, SASS, Javascipt, ReactJS, MicroFrontend.
- Troubleshooting and debugging front-end issues to ensure optimal performance and usability
- Work to achieve a balance between functional and aesthetic designs. Maintain brand consistency throughout the design process.

Web Development Project — July 2023 - Present
HUF India Pvt. Ltd — *Pune*

- Inhouse project under college faculty for HUF India.
- My team is working on creating dashboards for maintenance system using MERN stack

PROJECTS

MediPortal - MongoDB, ExpressJS, ReactJS, NodeJS — View Project

- MERN stack web app enabling doctor appointments, user profiles, and authentication.
- Admin features for doctor approval, user management, and real-time appointment tracking.
- Seamless doctor selection and booking, with secure data storage in MongoDB.
- Real-time notifications for users and doctors, ensuring a smooth and informed experience.

WanderStay - MongoDB, ExpressJS, ReactJS, NodeJS — Link

- Developed a dynamic MERN stack hotel reservation app with user registration, login, and personalized search functionality, including real-time updates for featured hotels.
- Implemented an efficient filtering system, allowing users to refine hotel searches based on city, date, and price range preferences.
- Designed an intuitive hotel details page enabling easy room reservation, with dynamic room disabling upon booking.
- Built an admin management system for seamless control over users, hotels, and reservations, ensuring smooth operations.
